### **DETAILED ACTION and ALLOWANCE**

1. Claims 1-6, 8-25 have been examined and allowed.

#### ***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance:
3. The prior art of record does not expressly teach or render obvious the claimed invention as recited in the methodology, article of manufacturing, and computer product of claims 1, 11 17, respectively. Specifically the allowable subject matter resides in the limitations, as recited in the context of entirety of the limitations of claims 1, 11 and 17, individually; directed to the "sorting the simulated scan flops into a logical order, identifying labels for the simulated scan flops, and graphically displaying the simulated scan flops versus time together with the labels " This is further argued persuasively by applicant on page 7, in the fifth paragraph of their response of March 21, 2005.

Though the prior art of record expressly teaches simulating and graphically displaying scan paths, chains and flops the prior art does not explicitly teach the recited limitations directed to sorting, identifying labels and graphically displaying the simulated scan flops versus time together with the identified labels, in the context of the claims, as taught and supported within the specification, was not uncovered and therefore the prior art does not explicitly teach the exacting steps or functionality as recited in the independent claims 1, 11 and 17. "A claim is anticipated only if each and every element as set forth in the claim is found, either expressly or inherently described, in a single prior art reference." *Verdegaal Bros. v. Union Oil Co. of California*, 814 F.2d 628, 631, 2

Art Unit: 2123

USPQ2d 1051, 1053 (Fed. Cir. 1987). "The identical invention must be shown in as complete detail as is contained in the ... claim." *Richardson v. Suzuki Motor Co.*, 868 F.2d 1226, 1236, 9 USPQ2d 1913, 1920 (Fed. Cir. 1989). The elements must be arranged as required by the claim, but this is not an ipsissimis verbis test, i.e., identity of terminology is not required. *In re Bond*, 910 F.2d 831, 15 USPQ2d 1566 (Fed. Cir. 1990).

Motivation to combine the teachings of the prior art, including that which would have been known to one with an ordinary level of skill in this art, was not uncovered so as to render the claimed invention obvious.

Dependent claims are allowable as it depends on an allowed independent claims.

### ***Conclusion***

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to William D. Thomson whose telephone number is 703-305-0022. The examiner can normally be reached on 8:30-3:30 Tuesday-Friday.
